

Managed Services

Why choose JCT Solutions?

We'll manage your network and dramatically improve your performance.

Free up your internal resources and do more by relying on JCT Solutions' expertise.

Standardized services and custom plans.

Full support for leading vendors: Avaya, Cisco, Extreme Networks, and HP.

Fixed-fee billing: predictable, manageable monthly expense.

Improve performance, reduce risks, and get more value out of your communications and networking investment.

You know how important communication is to your business.

To be successful today, you need to take full advantage of all the options for voice, data, and video communications.

The challenge is that when you increase your reliance on today's advanced communications and networking capabilities, you also increase your need for the skilled resources and expertise required to manage them.

That's why you need **JCT Solutions' Managed Services.**

Systems Integration and Managed Services

As one of the leading systems integrators in the Greater New Jersey/New York area, JCT Solutions is also a leading provider of the managed services you can rely on to monitor, manage, and support your communications 24/7/365.

JCT Solutions works with a wide range of businesses, government agencies, and educational institutions to keep their communications and networking

solutions available and operating at peak performance.

In the management and support of highly demanding Emergency Dispatch/911 services, JCT Solutions is the leading provider in New Jersey.

Working with JCT Solutions

From our fully staffed Network Operations Center, JCT Solutions manages thousands of devices in locations across the country.

JCT Solutions is completely experienced in supporting systems from the leading vendors including **Avaya, Cisco, Extreme Networks, HP,** and more.

Our technicians and systems engineers can work as a seamless extension of your team, supplementing and extending your internal resources or even reducing/eliminating the need for them.

Why Use JCT Solutions Managed Services?

More Value for Your Business: With JCT Solutions handling the day-to-day management and support of your communications and networks, it frees your internal staff to focus on the high-priority projects that deliver value to your business.

The Expertise You Need: Communications technologies are constantly evolving—we make it our business to keep up with the latest innovations.

Comprehensive Coverage: It's a challenge for even the largest organization to provide comprehensive support 24/7/365. Take advantage of our economies of scale to get cost-effective support.

Stop Problems Before They Start: Through continuous monitoring and proactive diagnostics, we resolve problems before our clients are even aware of them.

Predictable Budgeting: Rely on our fixed-fee billing for a predictable and manageable monthly expense.
